Project Planning Phase

Project Planning Template(ProductBacklog,SprintPlanning, Stories, Story points)

Date	04-03-2026
Team ID	
Project Name	Malaria Detection using Deep Learning
Maximum Marks	8 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Data Preparation	USN-1	**As a developer, I can load and preprocess the cell image dataset to ensure consistency.**	1	High	4
Sprint-1	Data Preparation	USN-2	**As a developer, I can perform data augmentation to increase model robustness.**	-	Medium	4
Sprint-2	Model Building	USN-3	**As a user, I want a CNN model architecture designed for binary classification (Infected vs. Uninfected).**	1	High	4
Sprint-2	Model Building	USN-4	**As a developer, I can compile the model using appropriate loss functions and optimizers.**	1	High	4
Spirit-3	Evaluation & Web UI	USN-5	**As a user, I can view the accuracy and loss curves of the trained model.**	-	Medium	4
Spirit-3	Evaluation & Web UI	USN-6	**As a user, I can upload a cell image to the web app and receive a diagnosis (Malaria detected/not detected).**	1	High	4

Project Tracker, Velocity & Burndown Chart: (4 Marks)

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	1	4 Days	20-02-2026	23-02-2026	1	23-02-2026
Sprint-2	1	4 Days	23-02-2026	26-02-2026	1	26-02-2026
Sprint-3	1	4 Days	26-02-2026	01-03-2026	1	01-03-2026
Sprint-4	1	4 Days	01-04-2026	04-03-2026	1	04-03-2026

Velocity:-

Following the template formula for a 10-day sprint with a velocity of 20 points:

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

Burndown Chart:
A Burndown Chart is essential for your Malaria Detection project to track "work left" versus "time". As you complete tasks like "Model Training" or "Dataset Splitting," the line on your chart will move downward toward zero.
